Our undermount process ensures a perfect fit for your Castech counters. Our stainless steel undermount offset bowls are a great size for most kitchens, still offering the convenience of two bowls but using less space than the double bowl.

On one side the basin is slightly smaller, creating the perfect counter space for the faucet and sprayer mountings.

The opposite bowl remains larger and deeper than most stainless steel sinks, easily accomodating your large pots and pans.

The double bowl undermount is a classic for any cook who simply wants two perfectly balanced work areas.

Our stainless undermount bowls contribute to a fluid, ergonomic workspace.

PLEASE CHECK OUR WEBSITE AT CASTECHINC.NET FOR MORE BOWL STYLES, EDGE SELECTIONS AND AVAILABLE COLOR CHOICES. PLEASE CONTACT US OR VISIT OUR SHOWROOM TO MAKE YOUR FINAL SELECTION.
