Trivets / ThermoRods

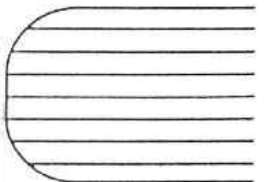

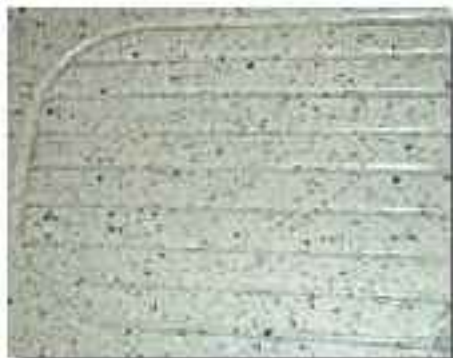

Raceway Drain Board

Arrowhead Drain Board

Contour Drain Board

Trivets are stainless steel ThermoRods which support hot objects directly on your solid surface countertops. Our trivets add practical "hot" space to your cooking area... perfect for the additional saucepan or baking pan you would have used stovetop space to cool.

Trivets sit in 1/8 inch routed grooves and can easily be removed for cleaning or more level counter space. You can also customize the location and spacing, placing ThermoRods from 2 to 6 inches apart, depending on your needs.
